

ALVEXPO

Manufacturers & Exporters of Surgical Instruments

SURGICAL

INSTRUMENTS CATALOGUE

ALVEXPO

'Alvi Expo' is an internationally active company with its base at Sialkot (Pakistan).

Our foundations date back to the era when our forefathers crafted the instruments with their hands; a hammer, a chisel and a plier were the tools, a hearth and a wheeled blower were in their factory and coal and water were the chemicals. We pay tributes to them and feel proud to have laid brick over brick keeping pace with the changing world.

Through the year since its inception, 'Alvi Expo' is proud of having evolved a constant process of renovating Surgical & Dental Instruments.

With full range of manufacturing and production facilities with in its boundaries, supported by a fleet of experienced workmen, supervised by highly qualified management, who are proud worthy for their abilities of creating handicraft to meet new trends and international standards. 'Alvi Expo' is a 100 & export oriented unit. Our instruments are explicitly engineered to meet your Surgical & Dental requirements.

Made of high quality stainless steel, appropriately treated, the instruments are sufficiently tested to ensure that these are fault free and are guaranteed against defective material, corrosion, manufacturing lack and promised quality standards.

Objectives

Every team member is dedicated to endeavor to excel in professionalism making the best use of his abilities to the optimum betterment the outfit, so that our products, not only meet the traditional standards, but also are a specimen to follow, thereby ensuring customer's satisfaction as well as better product for the next generation.

Suggestions

we have a passion to excel and for that we welcome your suggestions for improvements of quality and extension in product range.
